# VALUE-ADDED SERVICES

The Neff Companies offer a wide range of services and solutions to assist manufacturers with their technical and commercial requirements.

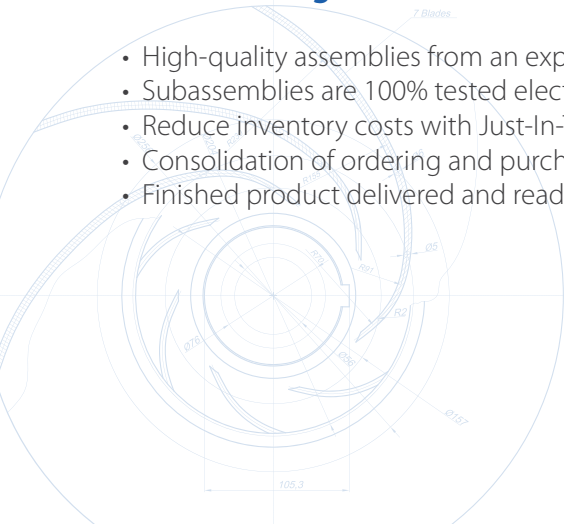

Our Value Add team can assist you with a wide range of assembly needs, including:

- 80/20 design assistance
- Installing fittings and components
- Valve stacks
- Assembling multiple parts into finished kits
- Pre-wiring electrical or adding various connectors
- Vision system evaluations

Our team can consult on an existing design or create a custom solution for you.

## Benefits of using our Value Add Team

- High-quality assemblies from an experienced team
- Subassemblies are 100% tested electrically and pneumatically
- Reduce inventory costs with Just-In-Time Deliveries
- Consolidation of ordering and purchase orders
- Finished product delivered and ready for install
